

Key list

A

Amygdala 1.1.4

F

Face perception 1.1.10
Face selective cells 1.1.1

I

Inferior temporal cortex 1.1.9
Inferior temporal cortex 1.1.9

L

Lateral intraparietal area 1.1.6

P

Prefrontal cortex 1.1.5
Priority map 1.1.7

S

Spatial attention 1.1.8
Superior temporal sulcus 1.1.3

Chapter 1

Chapter 1

1.1 Section 1

1.1.1 Face selective cells

face selective cells are in: IT, STS, Amygdala, PFC

[Face selective cells, Inferior temporal cortex, Superior temporal sulcus, Amygdala, Prefrontal cortex]

1.1.2 Inferior temporal cortex

face selective cells are in: IT, STS, Amygdala, PFC

[Face selective cells, Inferior temporal cortex, Superior temporal sulcus, Amygdala, Prefrontal cortex]

relative tolerance to the position of the face within the receptive field and the size of the face itself

[Inferior temporal cortex, Face perception]

1.1.3 Superior temporal sulcus

face selective cells are in: IT, STS, Amygdala, PFC

[Face selective cells, Inferior temporal cortex, Superior temporal sulcus, Amygdala, Prefrontal cortex]

1.1.4 Amygdala

face selective cells are in: IT, STS, Amygdala, PFC

[Face selective cells, Inferior temporal cortex, Superior temporal sulcus, Amygdala, Prefrontal cortex]

1.1.5 Prefrontal cortex

face selective cells are in: IT, STS, Amygdala, PFC

[Face selective cells, Inferior temporal cortex, Superior temporal sulcus, Amygdala, Prefrontal cortex]

1.1.6 Lateral intraparietal area

LIP probably contains a priority map reflecting spatial attention
[Lateral intraparietal area, Priority map, Spatial attention]

1.1.7 Priority map

LIP probably contains a priority map reflecting spatial attention
[Lateral intraparietal area, Priority map, Spatial attention]

1.1.8 Spatial attention

LIP probably contains a priority map reflecting spatial attention
[Lateral intraparietal area, Priority map, Spatial attention]

1.1.9 Inferior temporal cortex

face selective cells are in: IT, STS, Amygdala, PFC
[Face selective cells, Inferior temporal cortex, Superior temporal sulcus, Amygdala, Prefrontal cortex]

relative tolerance to the position of the face within the receptive field and the size of the face itself
[Inferior temporal cortex, Face perception]

1.1.10 Face perception

relative tolerance to the position of the face within the receptive field and the size of the face itself
[Inferior temporal cortex, Face perception]
